

# Polyfoil® Roll-on

## No more squeezing – roll it on!

Are you looking for a convenient tube to evenly apply your product with massage-effect? Neopac has developed a special roll-on applicator designed for liquid and creamy fillings. The patented system is available with exclusive ceramic balls, cooling metal balls or food safe plastic balls.

## Advantages

- High barrier for sensitive contents
- Soft massaging function
- Two viscosity ranges available
- Optimal continued flow of the product
- No finger contact with the product
- Enhanced aesthetics with metal overshell cap

## Cosmetic applications

- Clean application of oils
- Essential oils
- Invigorating eye serum

- Solutions for impurities
- Pigment spot treatment

## Pharmaceutical applications

- Topical lotions
- Treatment of skin allergies and irritations
- Insect bites and stings
- Anti transpirants
- Athlete's foot
