

Polyfoil® child resistant tube

Child resistant and easy to use

Neopac's certified systems provide child resistant caps that are also easy for adults and the elderly to use. What is more, the high barrier properties of the Polyfoil® tube ensure that the contents are always well protected.

Benefits

- Child resistant, certified in accordance with USA Norm 16 CFR § 1700.20 / ISO 8317
- Easy to open for the elderly people
- High barrier properties for sensitive contents
- Longer shelf-life compared to conventional PE/PP packaging
- Can be sterilized by γ and/or x-ray
