

Polyfoil® Twist'n'brush™

A perfect match

The Twist'n'brush™ tube expertly combines our proven Twist'n'use™ system for single application with the extremely fine micro-bristle applicator from Sulzer Mixpac. Twist'n'brush™ allows simple, precise and hygienic application for consumers. When the tube is turned, the inner pin is released and the content can be applied in a targeted manner.

Advantages

- Soft micro bristles allow for precise, hygienic and soft product application
- The Twist'n'brush™ is suitable for fluid and semi-solid contents
- Tamper-evident thanks to an inner pin
- No contamination of the content

Applications

- Skin care products, dermatology, wound treatment
- Nail and cuticle treatments
- Foot care
- Ear, nose, mouth and labial care
- Dental products

- Hair and scalp treatments
- Animal health
- Diagnosis
